

## Control – display – supervise

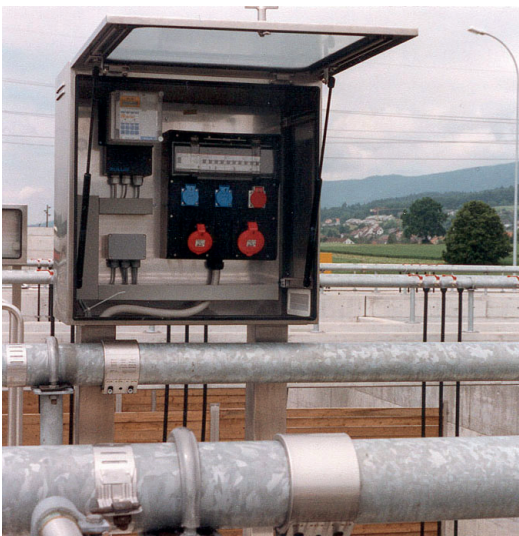

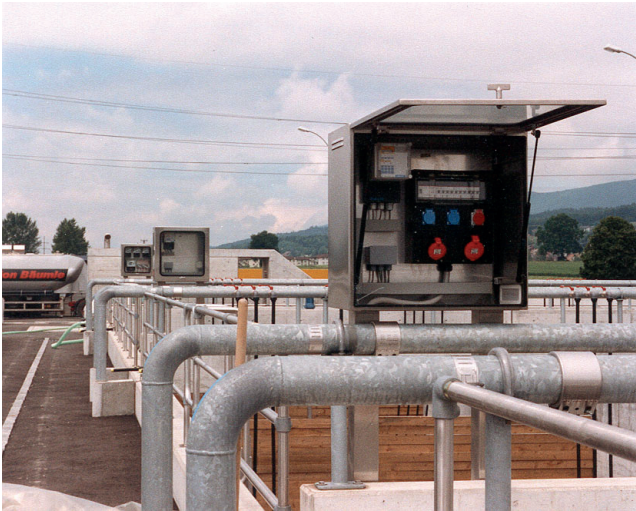

Client: ARA „Wüeri“, Regensdorf

### Task

- Power distribution box for ARA
- Execution chemical-resistant and weather-proof
- Solutions for different problems regarding the column/mounting device

### Characteristics

- installation into V2A boxes, corrosion-resistant
- clearly arranged
- clean cable conduit
- weather-proof by a door that can easily be opened (shock absorber as well as viewing window)
- columns / mounting assemblies adapted to the needs of the environment / conditions
- cable conduit integrated into the column
- planing at an early stage → ideal solution
